CIVICA

Transforming the way you work

Cito

Transforming patient care with **real-time single view access** to critical information

The Government's aim of a paperless NHS by 2020 has seen the allocation of over £1bn* set aside for new technology. However this drive towards digital needs to ensure it delivers the required savings, efficiencies and ultimately improve patient care for the health service of today and tomorrow.

As a **trusted partner** for over 400 health and care providers, Civica is helping Trusts respond and **deliver improved, cost efficient and future-proofed patient care** with Cito.

200

200 NHS Trusts using Civica systems

150 million documents & images scanned annually

Cloud delivery to more than 20,000 clinicians

£40 billion

£40 billion of NHS funds processed annually

Transforming
patient care

Cito is transforming patient care for the health service of today and tomorrow.

As a **responsive** and **browser agnostic** web based **Clinical Management and Portal solution**, Cito is delivering healthcare providers tangible savings, operational efficiencies and improved patient care.

> "The ability for a clinician to log-on to one single interface and be presented with critical patient information from a series of systems is extremely beneficial and time saving."

Paul Curley, Chief Clinical Information Officer
The Mid Yorkshire Hospitals NHS Trust

Tangible savings

Cito delivers a Trust's 'Paperlight' strategy, reducing document storage and paper handling costs.

Operational efficiencies

Cito's single sign-on and integrated interface delivers significant time savings and real-time access to patient data.

Improved patient care

Cito provides a complete virtual patient record to improve decision making and patient-focused outcomes.

Enhanced patient care

1 Customisable virtual patient record

Cito's integrated and customisable user interface delivers a centralised virtual patient record - providing a complete clinical picture to deliver better patient-focused outcomes.

2 Proven interoperability & integration

Integrating with over 30 third party systems, Cito provides the complete patient care system. From initial document scanning, to seamless end-to-end integration, Cito connects existing systems via a single sign-on interface.

3 Designed by clinicians for clinicians

Civica's proactive Clinical Advisory Group was setup to enable Cito to be shaped around clinician's key requirements. Continuous engagement with our community will ensure Cito continues to adapt and meet future needs.

One interface to **access them all**

With a customisable, cloud based and intuitive interface, Cito **seamlessly connects into third party systems** to provide access to critical patient information from a **single sign-on portal**.

Meeting the ever growing needs of Healthcare professionals, Cito has been **designed with user engagement** to ensure it meets clinician's current and future requirements.

Single sign-on intuitive interface

Responsive & browser agnostic

Real-time access to critical information

Designed by clinicians for clinicians

Customisable virtual patient record

Unmatched EDMS, eForms & workflow

Integrates with 30+ third party systems

Improved security, auditing & reporting

Why Cito?

With powerful Electronic Document Management, workflow and integration capabilities at its core, Cito builds on WinDIP's capability to further enhance a Trust's 'Paperlight' office and digital health strategy.

Single sign-on
Cito integrates with Active Directory to enable a single sign-on interface - enhancing corporate wide security, simplifying identity management and reducing overheads.

Seamless integration
Cito's proven interoperability seamlessly integrates into over 30 key third party systems to deliver real-time access to critical information.

Customisable
A simple and intuitive to use interface, Cito has been developed specifically for clinicians. Cito's widget functionality enables customisation with a specific and in-depth patient information display.

Virtual patient record
Clinicians can further customise their user interface with an integrated virtual patient record to provide the complete clinical picture.

Responsive
Utilizing HTML5 technologies, Cito has been designed as a responsive and browser agnostic web based portal; allowing users to access critical information on their device of choice.

Powerful eForms and workflow
Cito effectively captures data and automates clinical pathways to deliver service efficiencies. While rapid deployment can be realised using our pre-packaged eForms and workflow.

Scalable
Cito is a robust, flexible and scalable solution allowing the solution to grow and adapt with your business needs.
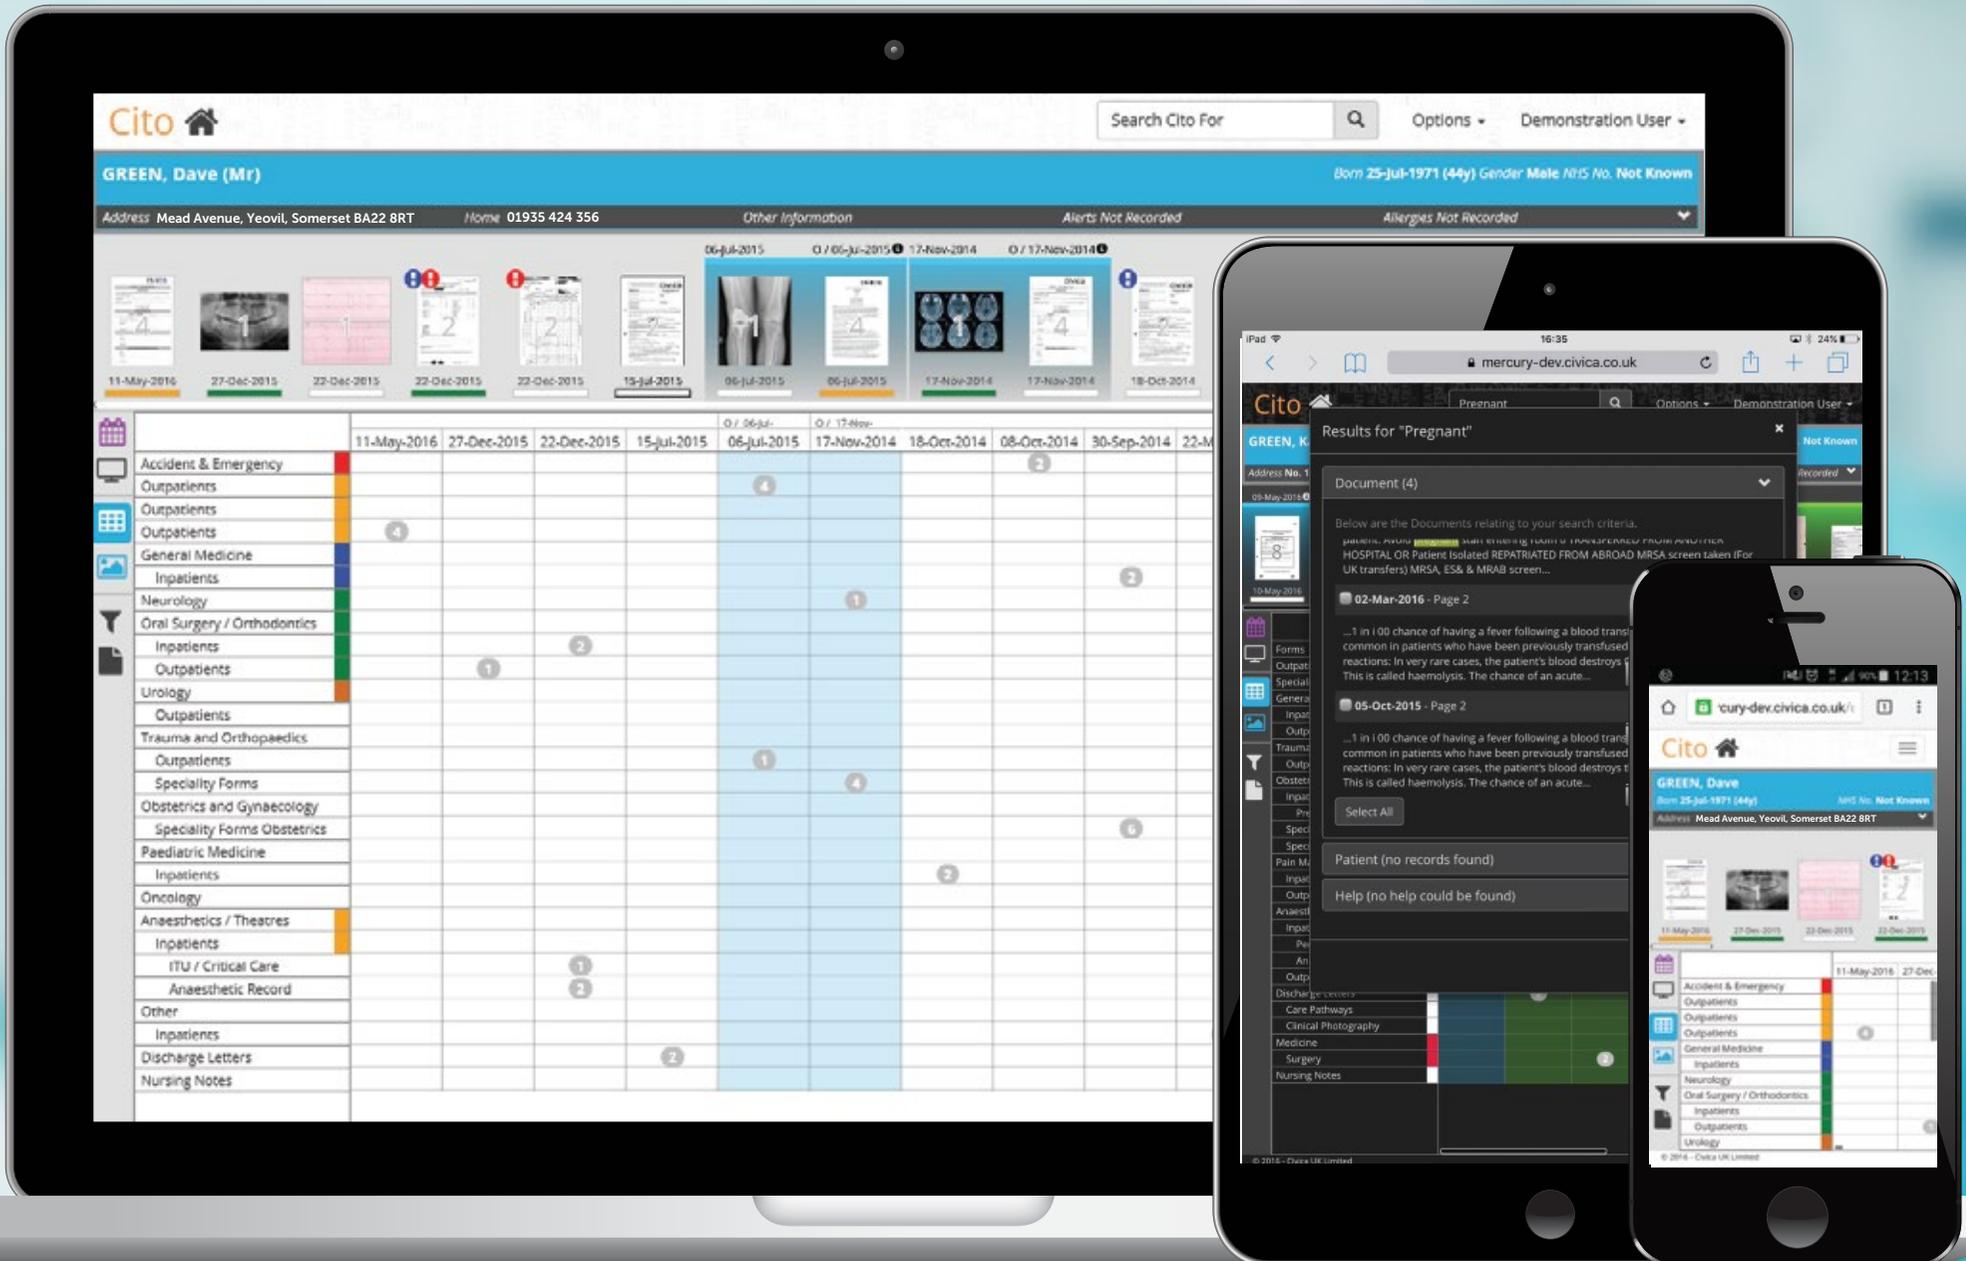

Auditing and reporting
Cito ensures compliance with NHS targets and standards. While Cito's enhanced reporting enables further service improvements.

Key components

- Single sign-on
- Seamless integration
- Customisable clinical interface
- Virtual patient record
- Responsive and device agnostic
- Powerful eForms and workflow
- Scalable and robust performance
- Auditing and performance management
- Automated classification and data processing
- Comprehensive cross system search
- Enhanced document security & compliance
- Online user interactive eLearning
- Plugins (CSC iCM, Microsoft Office)
- Delivered On-Premise or in Civica's Secure Managed Cloud

Responsive user interface
