

Tranman DVSA Compliance module

Simplified reporting for **DVSA compliance** and earned recognition scheme

Support the maintenance of your operator's licence with increased insight into vehicle compliance and comprehensive reporting.

Operating licence compliance

As a Tranman user, you know how well the solution helps you track the vehicle inspection schedules and manage vehicle standards that are vital to maintaining your operator licence. Now the Tranman DVSA Compliance module brings all that information together in an easy-to-use dashboard.

Red-amber-green status indicators enable you to see at a glance how compliant your organisation is with the legislation. You can quickly drill down to find out more about any compliance issues and help speed their resolution. The module also provides a range of management information to help you run your fleet more efficiently.

DVSA earned recognition

If you join the DVSA earned recognition scheme, the Tranman DVSA Compliance module streamlines your participation. It gathers the required performance information and sends it to the DVSA on your behalf — saving you hours of work every month on data analysis, complex calculations and report preparation.

Via the dashboard, the module provides timely alerts of any issues that could cause you to miss your monthly KPIs, giving you the opportunity to rectify them before the data is transmitted.

Earned recognition benefits

The benefits of joining the DVSA earned recognition scheme include:

- ▶ Reduces roadside inspections by DVSA — avoiding delays to journeys that could cost you money
- ▶ Minimises the need for DVSA enforcement staff to visit your premises
- ▶ Automates your data gathering and transmission of data to DVSA to ensure you are compliant with the scheme requirements
- ▶ Drives customer confidence in you as a supplier being an approved DVSA earned recognition operator.

Improves data insight

Mitigates non-compliance risks

Delivers time savings

Main benefits:

- ▶ Mitigates risks; easy tracking of DVSA operators licence compliance with a dashboard view and RAG status indicators
- ▶ Reduces time spent on administration and reporting
- ▶ Increases visibility of your fleet operation with early warning of issues that could mean missed KPIs
- ▶ Improves productivity with reduced roadside or on-premise inspections for those who join the Earned Recognition scheme.

What is DVSA earned recognition?

DVSA earned recognition is a voluntary scheme for vehicle operators of all sizes to prove they meet driver and vehicle standards. In return for regularly sharing performance information with DVSA, participants' vehicles are less likely to be stopped for roadside inspections.
