

## Authority Finance

Gain control over local government fiscal operations with Authority Finance

### Accelerates access to real-time data and instant critical reporting, providing transparency for astute decision making

A proven Financial Management solution that provides your department with insightful reporting. Helping you to manage finances more effectively and plan for the future.

With 40 years' Local Government experience, it allows us to develop smart finance software for our customers. Providing you and your teams with fast access to your multiple data sources, Authority Finance allows you to oversee all financial activities in a strategic and responsible manner.

Real-time data, as opposed to weekly reports, means that financial performance, including departmental access to purchasing and budgeting, can be reviewed every day. This gives you better insight so you can identify problems before they occur.

Using Authority Finance, your department will have more time to focus on strategic community advancement and more money to spend on things that are important to your tax payers.

#### Core benefits:

- ▶ Dashboard provides user-customized access to critical data and processes
- ▶ Tracks multiple financial resources against expenditure
- ▶ Complete visibility of all financial statements
- ▶ Improved productivity, resulting in lower operating costs
- ▶ Departmental access to purchasing and budgeting

"Technology is key to reducing the cost of doing business and this in turn means there are more taxpayers' dollars to use for the benefit of the community."
